OBJECTIVE

Motivated graduate developer with strong ethics and academic background, seeking frontend developer role to contribute expertise to impactful projects.

EDUCATION

Front End and Cross Platform Mobile Development Track Information Technology Institute, ITI 🔗	07/2023 Giza, Egypt
Bachelor of Commerce Accounting and Finance Cairo University	2015 – 2019 Giza, Egypt

WORKING EXPERIENCE

Software Developer Upwork 🔗	08/2021 – present
<ul style="list-style-type: none">Engaged in client collaborations to build seamless mobile applications using the Flutter framework.Utilized Firebase for real-time database, user authentication, and cloud storage, enhancing app functionality.Integrated diverse APIs to enable data synchronization with external services, elevating overall app performance.Developed captivating and responsive user interfaces for web projects, leveraging the power of React.js and Next.js.Collaborated with backend developers and UI designers to seamlessly integrate frontend and backend components, creating visually appealing and user-friendly mobile and web applications.	

PROJECTS

IPark - web and mobile application ITI Graduation Project: Collaborated in a team of 5 to develop IPark, a web and mobile app revolutionizing parking solutions. Locate nearby garages, effortlessly reserve parking spots using cash or card, and conveniently track reservation history. Implemented an admin dashboard for streamlined garage approval process. <ul style="list-style-type: none">Front-end: React, Material UI, Bootstrap, Redux toolkit, Firebase, Google cloud, Stripe and Localization GitHub Repo 🔗 Demo 🔗Back-end: Firebase and Node Js GitHub Repo 🔗Cross-platform mobile: React Native GitHub Repo 🔗 Demo 🔗	06/2023
ArtiGen - web app Developed a powerful text-to-image generation app using speech to text, delivering stunning visuals and transforming ideas into captivating artwork. <ul style="list-style-type: none">Technologies: React js, Material UI, Axios, Eden AI, react-speech-recognition GitHub Repo 🔗 Demo 🔗	07/2023
Chatty - web application Created a dynamic chat web app featuring secure login, real-time chatting, emojis, profile editing, and customizable dark/light modes. <ul style="list-style-type: none">Front-end: React.js, Material UI, and Client Socket.io GitHub Repo 🔗 Demo 🔗Back-end: Node.js, Express.js, Socket.io, Bcrypt GitHub Repo 🔗	07/2023

Personal Portfolio

07/2023

Designed and developed this portfolio using various technologies to highlight my expertise in web development.

- Technologies: React Js, Material UI, Framer Motion, Three Js **GitHub**
Repo [↗](#) **Live App** [↗](#)

Students Dashboard - web app

05/2023

Developed an Angular CRUD app to streamline student management, enabling efficient administration with seamless display, addition, updating, and deletion of student information.

- Technologies: Angular, Bootstrap, Json Server **GitHub Repo** [↗](#) **Demo** [↗](#)

Nanny Finder - mobile app

2023

Created a seamless platform facilitating job applications for nannies and empowering families to receive, filter, and contact nanny applicants. Developed a user-friendly web version and an efficient admin dashboard for easy nanny approval.

- Technologies: Flutter, Flutter web Dart, BloC, Firebase (Auth, Firestore, Storage, Dynamic Links, Hosting) **Google Play** [↗](#) **App Store** [↗](#)

Whosapp - mobile app

2023

Developed a mobile app that enables users to discover and connect with nearby services effortlessly. Implemented a platform where service providers can list their services and locations, while admins efficiently approve listings and send push notifications to all users for seamless communication.

- Technologies: Flutter - Firebase (Auth, Firestore, Storage, FCM) - Google Cloud (google places api, google maps) **Google Play** [↗](#) **App Store** [↗](#)

TECHNOLOGIES

Programming Languages

JavaScript, TypeScript, Dart, C++, OOP

Frontend

HTML5, CSS3, ReactJs, Angular, NextJs, Bootstrap, Material UI, Tailwind, Threejs, Redux toolkit

Backend

NodeJs, ExpressJs, MongoDB, Firebase

Mobile cross-platform

Flutter, React Native

Git & GitHub | Agile Methodologies
